

FIELD DAY

COORDINATOR

Taking place in late spring, Field Day is a fun, school-wide event in which students participate in races and outdoor games. The coordinator will work with the school admin team and our Phys Ed teacher to secure the supplies needed. They will also recruit volunteers to assist with game set-up and management.

STATION LEAD

We need 20 station leads to run each outdoor game or race. Instructions and supplies are provided. Leads will explain the games to the kids, assist teachers in maintaining order, and encourage everyone to have fun!

CLEAN UP/SETUP

With a lot of fun comes a lot of supplies! We need lots of extra hands and backs to create a great event and make sure we leave nothing behind.

GO-FER

Someone needs to go home early, or someone needs some water...always! We need extra feet to run supplies to and from the stations, which are set up all over the field behind Cornell.

PHOTOGRAPHER

We simply want evidence of a good time. That's all!

SIGN PERSON

Each teacher has a sign to keep their class together, but we can really use someone to be in charge of handing them out and directing traffic!
